BUYING ANGLING PERMITS AND LICENCES IS CHANGING

FROM 28TH APRIL 2016, an electronic record (e-record) will be created for all licence, permit and day ticket purchases.

WHERE TO BUY LICENCES AND PERMITS

Customers can still buy their licence or permit online or from a DCAL authorised distributor.

BUYING ONLINE

If buying online customers will receive email confirmation with details of their licence/permit number.

BUYING FROM A DISTRIBUTOR

If buying from a distributor, customers will be given a receipt with their details and licence/permit number. Confirmation can also be sent to your email if you provide a valid address at the time of purchase.

NEW DISABLED LICENCES AND PERMITS

All disabled licences and permits will now be available from all DCAL distributors. There will no longer be a 2 week application period as licences and permits will be issued automatically on the day of purchase. Please note Department of Health, Social Services and Public Safety checks will still be carried out to ensure entitlement.

ALREADY HAVE A LICENCE/PERMIT

If you have already purchased your licence/permit just continue to use this documentation. If you wish to purchase further permits or day tickets with your current paper licence, go to a distributor shop or contact the Department.

LICENCE AND PERMIT CHECKS

DCAL Fishery Protection Officers will have access to all records so anglers can provide their name and date of birth which will confirm if a valid licence or permit has been purchased. Note anglers will be required to show proof of a valid licence purchase to other authorised officers by presenting them with their e mail confirmation or distributor receipt.
